BHAGYA VIJAYAN

Plant a Seed

Introduction

Concept

Plant a Seed is a non-profit organization working on harvesting and reforestation. People can join the team by donating plants or seeds to the community. Plant a seed volunteers will collect saplings from the donors and deposit to the nearest nursery.

The community also fight against malnutrition and starvation death of plants in public places and plant fruit trees in those areas

Users can adopt any plant listed on the website or directly collect the plants from the nearest Plant a Seed nurseries.

An annual report with planting details will be provided to each registered users / donors quarterly

“We never grow closer to God when we just live life. It takes deliberate pursuit and attentiveness.”

FRANCIS CHAN

Plant a Seed Org.

It is a MEAN stack project generated in angular CLI V.10 with back end Node Js and Express Framework . It uses Mongo DB for storing and retrieving information's

Database Structure

Front end **Angular**

Back end – **Node Js**

Every Seed is a Plant waiting to Grow!!

2020- SEP- 30000 TREES
2020- MAR- 20000 TREES

The Work in the tree nursery

The seedlings grow strong in our own tree nursery. We produce 20% more seedlings than we need, so we can select the best trees and keep our high survival rate on the planting ground. With 35 workers, we are growing 8 tree species. Each species sprouts at a different time, so we schedule when to seed each species.

Early Summer Until Winter

We take care of all the trees we have planted. It is really important to clear the area of weeds on a regular basis so that the trees can grow freely. We need to clean the area every 3 months so the trees get enough sunlight and we keep our 94% survival rate.

Our work is made possible by an incredible supporter community. We are grateful for the donors, Sustainers, Brand Partners, Ambassadors, Harvest Members, & many others that are dedicated to a better future for our planet & communities in need.

OUR SERVICES

Plant a seed is a non-profit organization. As an environmental charity we're on a mission to make it simple for anyone to help the environment by planting trees! [Read more](#)

OUR VISION

We imagine a world where communities and nations sustainably manage their forests and natural resources for the benefit of our climate, our environment and humanity.

OUR MISSION

We work for developing lush green world for the future generations. With our each sapling, We intend to create a repository for a bio diverse planet.

OUR VALUES

The values that inspire our work are: Integrity, Transparency, Excellence, Collaboration, Passion, and Courage.

OUR GOAL

Our goal is to create a green and clean planet through tree plantation. Along with our diligent greening efforts, we promote extensive agriculture across the nation and making it a happy green paradise.

VOLUNTEER WITH US

Let's start from today. Greenify is calling you. Come, Let's together spread the love.

SPREAD THE LOVE

If you love your life, you must plant a tree. Planting trees symbolizes growing deeper and stronger roots and a meaningful connection with Nature.
